January 9, 2025

Dear Parents or Guardians,

This year, we will be hosting a Project Fair on Friday, February 6th. Participation in the Project Fair is optional for students in Grades K-5. Projects will be completed at home and will be displayed for judging and viewing at the school. Participants are required to prepare a visual display and an oral presentation.

The Project Fair can be completed from either a **social studies** or **science perspective**.

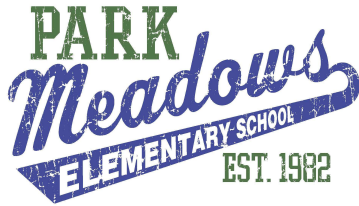

- **Social Studies:** The projects can be centered on any topic related to social studies. Examples include, but are not limited to history, geography, culture, and current events.
- **Science:** Projects can be research or experimental in nature. Areas of investigation could be, but are not limited to, plant growth studies, animal observation studies, product testing, energy studies, or inventions.

Please find the registration form for the Project Fair attached to this letter. The form must be **fully completed** and returned to school by **Monday, January 20th** for your child to participate in the Fair. Students who choose to participate in the Fair will be given a handout of rules and guidelines.

Yours sincerely,

The Project Fair Committee
